

Cross-walk of References for Observed Strengths and Areas to Improve on Video Observation Segments

<i>STRENGTHS</i>	<i>CFOC Pages</i>	<i>CFOC Stand.</i>	<i>MCCHP Pages</i>	<i>PA DPW Regs: 3270.</i>	<i>Other</i>	<i>AREAS TO IMPROVE</i>	<i>CFOC Pages</i>	<i>CFOC Stand.</i>	<i>MCCHP Pages</i>	<i>PA DPW Regs: 3270.</i>	<i>Other</i>
DROP-OFF & PICK-UP											
Check use of seat restraints	61	2.032	13 A(1)	.175		Child exposed to traffic	61	2.032		.171	
Cement walkway	61, 271	2.033, 5.219-20		.171		Steps into facility-not handicapped accessible	189, 326	5.004, 7.016		.80	
Locked entry- use of intercom	262	5.191-92	10 A(1)	.21							
INFANT/TODDLER											
Warm loving interaction between caregiver & children	168	4.035		.113		Bibs & food prep. too close to diaper changing area	96	3.016-17	21 (2)	.135	
Children can explore freely				.111		Diapering & food preparation should be completely separated	96	3.016-3.017	17 (1)	.135	
Eating round table- separate children with an empty seat between	165	4.028		.161		Children seated too close, tempted to share food	165	4.028	22 (17)	.161	
Step can for contaminated items	93	3.014		.135		Contaminating clean area- did not remove soiled gloves /wash child's hands?	93	3.014	17 (3)*	.134 .135	Keeping Healthy
Caregiver talking to child good one-on-one time	166, 168	4.031, .035, .036		.111 .112		No eye contact w/child during feeding	168	4.035	2 (A)	.166	
Baby placed on back to sleep- prevent SIDS	248	5.146	25	.21		Babies left unattended in swings			5 C (2)	.112 .113	
						SIDS Risk- Loose, soft bedding in crib	248	5.146	25	.21	
						Cribs too close together (3 feet apart/ separated by partition, reduces spread of infections & risk of fire.)	247-248	5.145	25	.106	
OLDER TODDLER											
Alternated large muscle exercise, less active	222	5.085		.111 .112							
Spacing adequate b/w furnishings	235	5.112		.62		Clothing storage not sep.=lice transmission	104, 250	3.028, 5.151		.21	HYC, 13
Activities suitable for mobile child	53	2.012		.111 .112							
Providing/helping w/ interesting activities	53	2.012		.111 .112							
Handwashing handled in sanitary way but...	97, 98	3.020-.021	16 A, 17	.134	HYC,12-13 Keeping Healthy	Paper towels not within reach	99	3.022	16 (C) Appx Q, pg 5	.134	Keeping Healthy
Environment good for napping	88,	3.008	25 A (2)	.106	Keeping Healthy						
Administers medications but...	137-8	3.081	Med. log- Appx. M	.133		Medication not stored safely	138, 229	3.082, 5.100	8 (4)	.133

FOOD PREPARATION											
Thermometer in refrigerator/freezer...	175	4.052	Appx. T log	.107		Area not sanitary or organized	170	4.042		.161	
Food storage good (prevents rodents)	177	4.057	21 (11)	.161		But temperature above the 40 degrees (PA Reg = 45 degrees or less	172	4.047		.107	
						Surfaces hard to keep clean	179	4.061		.104	
						Only one sink for food prep and handwashing	171	4.045-46	21 (3)	.82	
						Lunchboxes on table contaminate clean surface	165	4.029	22 C (2)	.21	
						Frozen food thawed -room temp	175	4.052		.161	
						Refrigerator-raw meat can drip down on food	176	4.054		.161	
						Raw meats - cut on surface that will have contact with other foodr risks contamination w/ bacteria	179	4.062		.161	
ACTIVE PLAY											
Foam blocks arranged as climber	55	2.016		.101		Inadequate impact absorbing surfaces (gym mats, carpet)	259	5.183 & Appx.V,	p. 5 Appx. Q	.21 .102	Dirty Dozen
Sunscreen being used	137, 257	3.081, 5.177		.21		Equipment too large	264	5.197		.21 .101	Dirty Dozen
						Sandbox in fall zone of swing	256, 258, 259	5.172, 5.180, 5.181	p. 7 Appx. Q	.21	Dirty Dozen
						Broken spring toy/could impale child	263	5.196	p. 7 Appx. Q	.102	Dirty Dozen
						Overlapping activity areas=collisions	253, 255, 256	5.174 5.162, 5.170	p. 7 Appx. Q	.21	Dirty Dozen
